Hematology and Oncology Symposium

Welcome to our 2nd Annual Hematology & Oncology symposium! We will delve into a range of crucial topics that are essential for primary care providers navigating the complexities of cancer management. As we progress through these topics, our goal is to equip you with practical knowledge and actionable insights that can enhance patient care in oncology. We hope to see you there!

CME TOPICS INCLUDE:

- DOAC's in 2026. Practical anticoagulation from primary care
- Iron Deficiency Anemia: Do's & Don'ts
- Treatment updates in Chronic Lymphocytic Leukemia
- Chronic Myelogenous Leukemia-evaluation & management
- Immunotherapy Toxicities: recognition and initial management
- Cancer therapy- related cardiotoxicity
- Prostate cancer: current treatment updates for primary care
- Targeted therapy in lung cancer: what primary care should know
